Interest chiefly centred in reports of the condition of the National Biscuit Co ... corn crop, which continued, however, to be disturbing. No rain or indications of moisture were visible today in the corn X, Y. Air Brake States, and the price of that staple experienced a sharp advance, owing to the comparatively poor outlook.

The same unfavorable weather conditions were reported in the Southwest and the outlook for the growing cotton crop was also said to be somewhat impaired. A more cheerful view was taken of the monetary situation, and the call rates ruled Prople's Gas of Chicago easier than yesterday. It is to be noted. however, that the Sub-Treasury in twodays has gained upward of \$1,500,000 from the banks.

The opinion prevailed that the United States Steel Corporation strike difficulties would be adjusted by Messrs, Schwab and Gary in the very near future, and the disaffection will not become more pronounced. This view was reflected by an improved tone in the market for the Steel issues, which displayed more resistance than at any time since a strike was talked of. Officers of the Steel Corporation contend that the strike is of no great Importance, and does not and will not greatly affect their business.

It was reported during the morning that the threatened Southwestern railroad rate war will be averted by the Atchison withdrawing the notice of reduction. A meeting of traffic officials of Western lines will be held on Friday to consider the situation. While it is believed the Atchison will maintain its present atttude up to the last moment, it is contended that there is too much at stake for that company to wage a war that will result in a general demoralization of tar-

Commission houses in the West were reported as the principal sellers. But the buying was good on the break, and excellent support was noticeable in the Steel stocks, St. Paul, and the Granger list.

The opinion on the board is that the Steel stocks will in all probability be settled very quickly, and that this will be a decided factor in railying the market.

NO TRACE IN ATLANTA.

HITCH IN IDENTIFICATION.

Police Unable to Locate Relatives of the Late John Dalton.

The police have been as yet unable to locate the relatives of John Dalton, the | was dark. painter who was killed at Pine Bluff, Ark., June 29, by being thrown from a train. For a time it was thought that the deceased was the brother of a woman who works in the Treasury Department and lives at 1411 Fifth Street northwest. A letter received yesterday, however, from Lue E Owen, of Pine Bluff, proved that surmise to be incorrect. From the description sent to Major Sylvester it was believed that the man was John Dalton, of 1411 Fifth Street.

Bad Circulation is the cause of most of the ills that come with old age. With advancing years there is a decline of strength and vigor-the machinery of the body moves with less speed and accuracy. Because of the weak and irregular action of the heart the blood moves more slowly, becomes impure and loses much of its life-sustaining properties, and muscles, tissues and nerves literally starve for lack of nourishment. A sluggish and polluted circulation is followed by a long train of bodily ailments. Cold feet, chilly sensations up and down the spine, poor appetite and digestion, soreness of the muscles, rheumatic pains, hard and fissured skin, face sores, chronic running ulcers on the lower limbs and other parts of the body - these and many other diseases peculiar to old people are due to a lack of healthy blood and imperfect circulation. Restoration to health must come through the building up and purification of the blood, thus adding strength and tone to the vital organs and quick, healthy action to the circulation.

S. S. S. being strictly a vegetable blood remedy and the best tonic, makes it the most valuable and efficacious of all medicine for old people. It is free from all mineral ingredients, and mild and pleasant in its action. It cures blood diseases of every character, even those inherited or contracted in early life. As the system gets under the influence of S. S. S. there is a marked improvement in the general health, and as richer and purer blood begins to circulate through the body the appetite improves, and there is a softness and elasticity about the skin that you have not noticed for years; sores begin to heal, pains in muscles and joints grad ually cease, and you find that it is possible to be happy and healthy even in old age

Our medical department is in charge of physicians who make a study of blood and skin diseases. If you would like to have their opinion and advice in your case, write them all about it and you shall receive such information and advice as you want. This will cost you nothing. Others have found our medical depart ment of great benefit to them - their cure being much more rapid as the result of some special directions received from our physicians,

Don't be your own doctor when you can get medical advice free. Book or Blood and Skin Diseases mailed to all who desire it. THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.
